

Community Fathering Hub Armadale

Case Management Support

The Fathering Project is now providing case management as part of our Community Fathering support services.

To assist dads who require additional support engaging effectively with their children, families and social issues such as mental health, housing or homelessness, financial issues, restricted access to children and potential addictions. We work with you to identify your strengths, advocate for you, assist you to respond to issues, provide practical support and work together towards strategic and action based goals.

Child and Parent Centre Westfield Park

Location: 11 Hemingway Drive, Camillo 6111
