We all have the right to feel safe all of the time

Would you know what you'd do in a situation where your child's friend disclosed information about abuse? Have you ever considered what to say in the case of another child showing yours pornography?

Often parents don't want to think about dealing with a situation like this. It's scary and they hope it won't ever happen to their child.

What would you do?

Are you confused about how to teach your children to be wary of potential harm, without overloading them with fear, wrapping them in cotton wool, or giving them so much information that their innocence is damaged? Would you know what tried and true steps to take in the event a situation occurred?

Come along to this Protective Education Workshop

Protective Education is a proactive whole community approach to teaching life skills to children. It gives them the language to identify unsafe situations, arm them with tools to seek appropriate assistance or protect themselves.
